SUBJECT: Bryston Model T Speaker – Real World Measurement

Hi Folks – real world feedback on the “IN ROOM” measurement of a pair of the Bryston Model T Signature Loudspeaker.

To: 'James Tanner'

Subject: RE: Bryston Model T Signature Speaker

Hi James, I really have not measured many speakers in my room. That said, from what I have done, The Model T have measured the best.

Please see the attached measurements using TrueRTA and a calibrated mic measured a bit above my listening position, on axis, at 13 feet from the speakers. Again, please keep in mind these were basically done out of curiosity, and by no means constitute a “professional” measurement.

Cheers,
