Rich,

Thank you for the audition of the Bryston Model T's. I had so much fun listening to the new model Ts.

My biggest reaction was simply that Bryston managed to deliver a product of this quality at such a low price point -- very impressive! In a largely mechanical device like a speaker or turntable, sometime a certain design just clicks, has a certain magic. That is clearly the case with the Model T. It's not a revolutionary design, but the performance for the money certainly is revolutionary.

In terms of their sound, I thought their sound-staging was outstanding: wide, tall and very deep and three dimensional. Another big impression was the quality of the bass; so tight and well defined. Overall a delightful and well-rounded speaker system.

Yay Bryston!
