

## Paradigm MillenniaOne \$250ea: Black or White

Hot off the presses from Paradigm is a nice quality, *tiny* speaker that will fill a variety of uses. If you're looking for a better sounding, tiny speaker than you see at the superstores, check out the Mil One.

The Mil One is 7 3/4h, 4 1/2w, 5 3/4d. It fits almost anywhere. The price includes a table stand and mounting brackets. You can place it vertically or horizontally.

The driver configuration is derived from higher end models in the Paradigm family. The parts are just smaller! The Mid-bass driver is a 4" S-Pal (Aluminum) element. The tweeter is a 1" S-Pal (Aluminum) driver. The sound from Mil One is quite clean, without the spitty top end bite that you hear from all the plastic tweeters out there.

Of course any tiny speaker like these guys will benefit from the addition of a sub. We have a boatload to choose from!
