BRYSTON

MEMO

MARCH 2024

Yesterday both Ståle and myself picked up our Bryston T-10 speakers and got them installed.

With new speakers the first impression are very important in my experience. I have had a lot of speakers thru the years and the ones that stay are the ones that you like immediately.

That is exactly what happened with the Bryston T-10`s.

The tonality is really nice, the soundstage is huge and at the same time spot on imaging and very clean. The bass is incredibly responsive at all volumes plus the headroom is so immense it seems the speakers does not have any limits.

Just wanted to give you some feedback, congratulations with producing really great speakers!

I put them on Youtube for the world to see them !

Ståle have very similar observations to mine by the way.

Best regards,
Dag Johnsen,
Norway.
