MEMO

APRIL 2024

Hi Mr Tanner,

I briefly met you at Montreal Audiofest.

After a very long talk with Blair, I sat and listen to two pieces of music after what you asked me how I was liking them speakers. I was short of words and only answered "They are impressive".

I apologize for my short answer, I was truly blown away and English being a second language, I found nothing else to say.

**But, I must say something, I went to the show being convinced that I won't buy anything... But I was wrong... My set of Trim T10 are now on order and I can't wait to listen to them in my listening room**

Again, sorry to have been too shy to sustain a real conversation with you.

I will do better next time!

Steve
