BRYSTON

MEMO

MARCH 2024

Hi Folks

Today I went to the Bryston kiosk at the Montreal Audiofest.

I was prepared to listen to the new Model T10 but instead, I did listen to the Trim T10 and, WOW!

The full sized T10 are beautiful but do not suit my room. But these Trim T10 are suitable for it for sure! I was dreaming about some previous Model T Classic speakers for my room but I never made it. But now that I heard these Trim T, I'm 100% sure I want them.

And this big plug module/connector on the back to switch between single/bi/tri amp or active... What a genius idea! It solve the problem of being affraid to buy passive then choose to switch to active later on. This principle is wonderful for the upgrade fever we often have.

I started my visit at Bryston and was able to compare with many other brands the same day. I heard so many systems that were not as good as Bryston setup! I must admit some others was also good but at 3 to 5 times the money... Say hello to Blair. He is a very nice guy to talk, he knows the product and clearly loves it!

Thanks guys!

Steve
